Class of 2021

My Dear Colleagues,

Covid 19, to say the least, came as a drastic change to all of us. It all started with last year's seniors to the upcoming seniors, all worrying about the pandemic that might put a halt to the final school year. Being a 2021 senior myself, I can honestly say that my senior year did not go according to what I had planned. Nevertheless, it was an unforgettable experience! During this year, I learned that patience, resilience, and the ability to adapt to change would allow us to better enjoy and work together throughout our final year. We should always bear in mind that this pandemic not only affected us, but it also affected the entire world. As a result, we had to accept that the changes and the restrictions were not personal, but they were universal which made it passable. Through this change, we were able to appreciate the little things that mattered the most and tend to put our losses aside. Frankly, we should be grateful for what we are capable of doing at the moment. Focus on our studies accept the change, and learn that every challenge we will ever encounter will only add to our real-life experience.

Lojain Fadi Abughayadh, Senior Of Class 2021
Student Council President
