ANNOUNCEMENTS

1- 4th COGNIA Re-Accreditation

Congratulations NGians!

Since our last accreditation, five years ago, all stakeholders have been working towards developing the school's goal. The main objective has always been, "What can we do to become better? How can we improve?"

Between endless meetings, action plans, corrective measure plans, surveys, data, analysis, feedback, reflection, brainstorming sessions, etc., I can proudly shout out now and say, "We did it!"

All stakeholders' participation, contribution, and hard work resulted in 2022's outstanding reaccreditation outcome. You should all feel overjoyed because YOU contributed to this success. I am honored to announce that New Generation International Schools has received its fourth reaccreditation for the next five years. Today and every day, feel proud, be proud because you are an NGian and part of an outstanding and spectacular educational institution!

5- Progress Reports

Progress reports will be sent to the parents of students, who receive an overall total score of a C- or below, for the time period between Sunday, March 20th and Thursday, April 14th. Progress reports are shared, as an integral channel of communication, to alert parents that their child is at risk of failing his/her Trimester 3 exam.

E-mails will be sent out on Wednesday, April 20th. Please, check your e-mail for updates. If you do not receive an e-mail, then your child has not received an overall score of C- or below.

6- Revista Inspira - International Special Edition

New Generation International Schools is very proud to announce that its High School students have taken part in writing a magazine article to be published in "Revista Inspira Magazine - International Special Edition", in Brazil. Students were required to create art pieces that represent and symbolize our Egyptian culture. The article writers extensively researched and presented their claims and positions about the role of students in the learning process and student-centered learning. Then, the article and art pieces were converted into a magazine spread designed and executed by one of our seniors. We are delighted and proud that our students, taking after our faculty members, believe that they should take ownership of their learning and understand that they are an integral element in the success of the pedagogical process. This further proves that as stakeholders here at New Generation International Schools, our goals are perfectly aligned.
